Introducing ArtHouse committee member *Victoria Placentino*

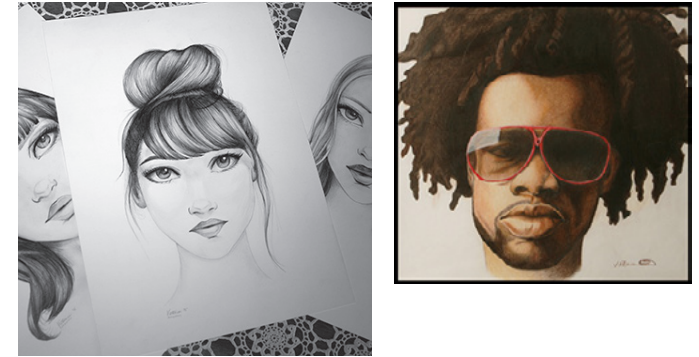

Ever since I was a little girl, I have always had a pencil in my hand. I knew then that I only ever wanted to do something creative in my life. In 2001 I graduated with a Diploma in Advertising and Graphic Design and joined the world of creatives.

Over the past 17 years I have worked as a graphic designer in advertising agencies, print houses and photo studios. As I continued to master my craft, I also started to dabble in other creative outlets such as photography, floristry, chalk board lettering and signage. I spent three years doing radio for the Italian community with some successful programs. At the same time, I made my way to the stage where, with friends, helped organise many variety shows. I also got to do a little comedy myself.

In between all that craziness, I started freelancing and building up my own business. Just recently launching a new brand and name for myself as *Studio Victoria*. You can stalk me on the socials [@studiovictoria.au](https://www.instagram.com/studiovictoria)

Over the years I noticed that I had put the pencils and paper down and no longer did any art. I needed to find that passion again. In December 2018 I made the decision to join the ArtHouse and jumped onto the committee. I've been here ever since and for the first time in years I am exhibiting a new piece for our *SALA Black & White exhibition*.

Last time I exhibited was in 2005 for the City of Norwood, Payneham & St Peter's Council Mullet Festival. Councillors Robert Bria, Carlos Dottore, and Lucy Marcuccitti were invited to

choose the Council's *Acquisitive Award*. They were so impressed with the standard of work they bought three pieces and my portrait of rapper Pras Michel was one of the three chosen.

I've met some wonderful people since joining the Campbelltown ArtHouse and have to say we are lucky to have such amazing and talented people within our community. The ArtHouse has been the missing piece that I needed to push me to start doing art again.

As we all know, art is good for the soul and I am definitely enjoying the ride.

FEATURE ARTIST

Lisa Chapman

Fortunate to be a creative, I have worked professionally as a graphic designer for the past twenty years. As an emerging visual artist; I am relatively new to the Arts industry. Recently focusing on developing my artist profile and style.

Graduating as 'Dux of the course' in 2000 with an 'Advanced Diploma in Advertising & Graphic Design', my design career has been varied. An in-house designer for several companies including print, health and beauty and sport. In mid 2017 I made the decision to freelance for my own company; 'Blue i Design & Art'.

My art skills were gained during my studies and subjects included drawing, life drawing and illustration. In 2013-2015 I attended weekly art classes with Con Petropoulos from 'Noah's Art'. He helped me to further refine my drawing and painting abilities.

In 2018 I began my Etsy shop to sell design and art pieces within Australia and internationally. I also create custom pet coloured pencil or watercolour/mixed media portraits and undertake commissions.

Shortly after becoming a member of the Campbelltown ArtHouse, they contacted me to engage my graphic design services. I created the ArtHouse logotype and brand style guide.

Since early 2019 I have participated in several group art exhibitions. Most recently, the 'Natural Neighbourhood' exhibition at the ArtHouse; now on display at the Campbelltown library.

A personal highlight last year was my solo exhibition held at the Adelaide Convention Centre. It featured watercolour/mixed media, Australiana illustrations.

Very influenced by the natural environment; my pieces tend to feature flowers, plants and animals. I have found that my design and art skills compliment each other.

Currently I have an online SALA exhibition; 'Decorative Patterns - Design Illustrations' including detailed, digital illustrations:

The ArtHouse is very grateful for Lisa's inkind support during COVID-19 lockdown. She has designed, edited and produced our newsletter to which we have had great feedback. Thank you Lisa for your time and dedication!

VIRTUAL GALLERY *James Parker*

I have been involved with the ArtHouse from the first expression of interest meeting in the library and seem to be still here.

I am very proud of what the ArtHouse has become and am much indebted to council and especially the various committee members through the years.

My Arts practise is varied; I came down from the Clare Valley to study art in 1994 and after graduating swore that if the job didn't have art in it I wasn't going to do it. So consequently I now work as a teaching Artist (in schools from Pipalyatjara in the APY to Glencoe in the South East), as a production designer and model maker in the film industry and my own practise as a Painter, Printmaker and Bookbinder. I wouldn't have it any other way.

Community Supporting the Arts

The aim of the Association is to increase and promote arts activity in Campbelltown by providing an inclusive environment that supports innovation and facilitates, educates and encourages artists to work together. We provide a collaborative space for local artists including, but not limited to, visual artists, designers, writers, photographers, filmmakers and model makers to meet and work.

The building space is leased equally between the City of Campbelltown and the Campbelltown ArtHouse Inc. Council's Community Hub offer various activities on Monday and Tuesday. The Campbelltown ArtHouse co-ordinate the exhibition spaces, run various workshops and classes including the member only Open Thursday Art Session and monthly Life Drawing evenings. Various other community groups also use the space.

Once we get back up and running after the COVID-19 restrictions ease, there will be art related events happening every month - from gallery exhibitions and art openings to workshops and artist lectures. We would be pleased to welcome you to be a part of the growth and energy in the ArtHouse.

Eco-friendly Printmaking Workshop

In this hands-on workshop, learn how to design, etch and print an aluminum plate using eco-aware printmaking methods. You are invited to respond to the theme of Botany. Participants will learn hard-ground and resist etching techniques, take home a collection of prints and the skills to set up in their own studio space.

Participants to bring: drawing materials i.e pen/pencil and paper/sketchbook, an image that you may want to use, kitchen/dishwashing or disposable gloves. Please wear enclosed shoes and bring a protective apron or shirt.

Presenter: Hanah Williams, Studio Pozole

Sunday 30 August, 10am-2pm

Class size: 8

Duration: 4 hours

\$60 per person
(all etching materials included)

Campbelltown ArtHouse
168 Montacute Rd, Rostrevor

Fertility, 2018, Hanah Williams.
Two plate etching on paper.

Monthly Life Drawing Session

Next session: Friday 14 August, 7-9pm

Untutored session. Members \$15, non-members \$20

Bookings essential: ann@whitby.id.au
